TO: the PEC Integrity Commissioner, members of the PEC Police Services Board and the Public Safety Minister of Canada

Freemasonare are in nearly every community in Canada. Some municipal councilors, members of the provincial and federal governments along with several professional service providers, all of whom are bound to a code of ethics, are in obligation to the masonic fraternity, a clandestine entity that acts as a shadow government in Canada. .

It's not only Freemasons who act as a shadow government, the Governor General of Canada actually facilitates a shadow government that's inline with the Roman Cahtolic Church. The Governor General is the prior of the Most Venerable Order of St. John in Canada which

connects to the Sovereign Military Order of Malta, an order under Papal protection. Additionally, the Order of the Garter, which one can not join unless being 'of the blood' and operates in the Canadian parliament through the Usher of the Black Rod. Please see more information about the Crown, the Roman Catholic Church, Protestant churches, clandestine orders and the resulting religious tyranny and global oppression.

The Crown itself is an obscure entity. The Canada.ca website states that:

"In Canada's system of government, the power to govern is vested in the Crown but is entrusted to the government to exercise on behalf and in the interest of the people. The Crown reminds the government of the day that the source of the power to govern rests elsewhere and that it is only given to them for a limited duration."

Wikipedia tells us that the Crown is the legal - not natural - person of Queen Elizabeth II. Yet, the Supreme Court of Canada says that the concept of natural, legal, juridical and corporate persons is a bunch of malarkey, pseudo-law. So, is the Crown an unlawful entity or is the Supreme Court wrong in its interpretation of pseudo-law and thereby subsequently oppressing the rights of the people of Canada?

When persons in obligation to clandestine third-parties also serve in the government or trusted positions within the public service sector, an immediate conflict of interest is generated. Where the masonic fraternity and the Roman Catholic Church, alike, are alleged to be criminal organizations, public servants and professionals who are bound to a code of ethics in their professional duties can not be aligned with such criminality.

As far as oaths go, a person can't effectively serve two masters, so to speak. Beyond being unlawful, intentionally serving the public with a conflict of interest is subsequently sneaky, unethical and deceitful!

Canada's Integrity Commissioner, has been informed about the conflict of interest issue in Canada. In fact, I've explained to the Office of the Integrity Commissioner that I'm alleging that treason and crimes against humanity are occurring in Canada. The Office of the Integrity Commissioner was also informed about potential corruption within Canada's public health agencies, the military, the judiciary, the CRA and the public and civil service sectors in general.

The Canadian Military Provost Marshal, the Judge Advocate General and the Directorate of Special Examinations and Inquiries have been informed of clandestine agents infiltrating the military for what appears to be a current potential takeover by NATO forces at this time.

Subsequently, the Canadian Federation of Municipalities and the Canadian Premiers have been notified that the people of Canada will be responding to the corruption and resulting treason in Canada through community action campaigns in municipalities throughout Canada.

None of those parties have responded to my correspondence which I consider to be a form of silent acquiescence, and a subsequent form of collusion to evade accountability among the addressed parties

With that being said, corruption is obvious and out of control nearly everywhere in Canada, but I know, beyond any doubt, that said corruption is heavily concentrated in the Bay of Quinte area in Ontario, Canada. According to my direct experience the government, particular service providers and several public service agents in Prince Edward County are corrupt to the core!

Prince Edward County is a proud Masonic community where the history of a masonic shadow government is evident and still thriving to this day. In fact, John A. Macdonald, himself a Masonic Knight Templar, is still celebrated among the so-called elite individuals and families in Prince Edward County. At the same time, there is heavy influence by the United Empire Loyalists, the Orange Order, etc..

On a personal level, I've been severely oppressed by a so-called elite circle of friends and families in Prince Edward County for nearly two decades now. My own persecution began because I advocated for children abused by the criminal child protection agencies in Canada.

It was presbyterian ministers and the Presbyterian church in Canada who directly oppressed me and alienated me away from my community when I was trying to expose that children were being sexually assaulted in the foster care system. Instead of helping me to expose the abuse, a prominent presbyterian minister, Lynne Donovan, partnered up with the very abusers who were responsible, the Children's Aid Society, and launched her 'Reaching for Rainbows' program, a program for 'at risk' females only, akin to the masonic rainbows program for older girls.

I've come to learn that the Protestant churches are just as corrupt as the Roman Catholic Church. They're all purporting the covenants of yahweh and the notion of a special chosen-people, elite status where those who aren't 'of the blood' are considered to be useless animals, unworthy of human rights and decency, much less any say in their own governance.

At any rate, my advocacy efforts paid off when several foster parents were sentenced to prison for sexually abusing foster children, the Prince Edward County Children's Aid Society became defunct and the Executive Director was eventually charged with ten criminal charges for the role that he played in the extremely controversial scandal. Still, professionals in the community continue to oppress me for whatever reason(s).

The OPP, in my direct experience, act as puppet thugs for the so-called elite circle of friends who have been oppressing me and my family. Several OPP officers in Prince Edward County

have criminally colluded with members of the community to cause me and my family members harm of various sorts and degrees.

A few years ago, my grandfather was murdered by my extended family members, in collusion with alleged professional service providers in my community. In fact, Heather Campbell, a current member of the Police Services Board, should know exactly what I'm talking about here. I tried to hold Heather accountable for the role that she played in the terribly unjust ordeal, however, nothing ever came of my efforts to gain accountability through the Prince Edward Family Health Team/Network. .

In fact, it's been the members of the Prince Edward County Family Health Team/Network that have directly aided in the demise of my health and my subsequent medical oppression. In my own case, medical doctors have not networked to keep me alive or to improve my life in any way, instead networking to discount me as a lunatic and to subsequently kill me off in some way, shape or form.

Nevertheless; I subsequently attempted to hold the OPP accountable for the role that they were adversely playing in my life and in the death of my grandfather through the Office of the Independent Police Review Director. Unfortunately, the Police Review turned out to be just as useless as the rest of the corruptly designed oversight mechanisms in Canada. Alas, my quest for professional accountability was quashed, again.

At any rate, just last year, the Prince Edward County Building Department condemned the house on the property that I own in Prince Edward County. I responded to the Order issued by Carol Ryan, claiming that I was being oppressed by a circle of so-called friends in Prince Edward County and that I felt that the order to condemn my home was inline with that oppression. I subsequently informed Carol Ryan that any further action against my property will be met with a legal response and that trespassers are liable for up to 2.4 million dollars for violating my rights.

Although the order to condemn my home still hangs on the front of the house for all the world to see, Carol Ryan refuses to communicate with me. It's been a year now. It's a most unusual and ridiculous situation.

I recently informed the Prince Edward County Mayor and municipal Council about my allegations of clandestine agents at work in the municipal government and I'm still waiting on a response.

I expect that I'll continue to wait for a response. In my experience, when corruption is identified and called out in Canada, the parties being called out rarely respond to the allegations. Instead, the cowards tend to sit in silent collusion. It's quite shameful and immoral, in all reality.

This is the reason that I'm moving on, now, to request the cooperation of the Integrity Commissioner, the Police Services Board of Prince Edward County and the Public Safety

minister of Canada (formerly known as the Solicitor General of Canada). Picton will be experiencing an increase in public protests and social unrest very soon I'd expect.

The people there seem to be waking to see just how corrupt their government is and, according to social media posts, the population there is becoming quite disgruntled with the municipal tyranny. It's literally becoming an 'us' against 'them' scenario in Prince Edward County. Those who are facilitating the corruption in Prince Edward county will be called out from the shadows and brought to account by the people of that municipality! Enough is most certainly enough!

On one hand; quite frankly I'm justifiably concerned that some of the addressees of this particular correspondence, are, themselves, in obligation to clandestine third-parties. On the other hand, despite said concern, I'm attempting to take the next logical step on my quest for government accountability. I'll keep going down the line of accountability and, in this way, clandestine agents will be identified through a cohesively revealing process, sooner or later.

If any of the addressed recipients of this correspondence are clandestine agents, I expect, and subsequently request, their immediate declaration of such or their immediate resignation from their professional duties. If not a clandestine agent in breach of their code of ethics and not otherwise generating a conflict of interest in their professional duties, I insist on a prompt and impartial response to my clearly stated allegations. Simply stated, the people of Prince Edward County need to know what team the addressed parties of this communication are batting for, so to speak.

The matters of a corrupt municipal government; the subsequent oppression that I've personally experienced, along with so many others in my hometown, must, finally, be acknowledged and reconciled. I've been reduced to almost nothing, barely alive, just clinging to life some days. I've been forced to live in the most horrendous conditions while those who know about my peril laugh or look the other way.

I've been left to starve and to fend for myself in the most humiliating, difficult circumstances. Still, what hasn't killed me has made me stronger in many ways. I will persevere, no matter how terrible I might feel on any given day, to deal with the corruption that's coming for all that I hold dear in life. I will not lay down and die nor will I shrink from what I feel to be a moral duty in exposing the epic corruption that's taken over Canada.

It's imperative, from my perspective, to assess the level of influence, if any, that the Masonic fraternity and other clandestine orders have on the municipal government. Influencing municipal officers is illegal in Canada, as we all know or ought to know. (S, 123 Municipal Corruption and influencing municipal officer, 120 bribery of officers, 465 Conspiracy, 52 Sabotage, 59 Sedition, 83.01 Terrorism, 431 attacks, 426 secret commissions, 429 willfully causing an event to happen, 420 Mischief, etc)

On another note, I wish to inform the addressed recipients of this correspondence about the campaign that I'm currently launching as I make my return to Prince Edward County. I fully

intend to peacefully remove clandestine agents, such as Freemasons, from the municipal government, judiciary and police department by enforcing existing legislation and equity maxims. I'll be encouraging others across Canada to take similar action.

Let there be no doubt that Canada's child protection agencies are criminal. These unaccountable agencies and their terrorist agents, often referred to as child protection workers or unregistered social workers, are causing incalculable and irreversable harm to Canadian children while, all too often, subsequently destroying their family units.

Overwhelming, undeniable evidence indicates that children who receive services of any sort from these unaccountable criminal corporations, are at risk of imminent harm. Sections 280-285 provide for anyone to apprehend a child(ren) in imminent harm. Further, section 27 of the CCC provides authorization to prevent the commission of a crime.

At the same time, municipalities have a mandate to provide child and family welfare services, an umbrella which child protection services falls under. Child Welfare Committees must be formed, in haste, within every municipality across Canada, in response to this outrageous criminal breach of trust by Canada's child protection agencies, a breach that is continuously condoned and subsequently funded by the respective provincial governments, despite enormous, historical public outcry.

It turns out that underneath the political facade, the shadow government is religiously persecuting the people of Canada in the name of Yahweh, an alleged storm/war deity, contrary to the inherent rights of the people of Canada to be free from state imposed religion or any sort of religious persecution!.

Meanwhile the Masonic Shriners and Jesters in all of their malevolent benevolence, scam the Canadian tax system while getting away with extremely criminal and immoral acts with a little help from their brothers and sisters in the judiciary. These orders of alleged charity and 'fun' have already begun to bring the roof down on their fraternity and the Canadian judiciary by way of their vile behaviors that will be realized by the populace soon enough.

The medical tyranny in Canada is over the top, the markets are about to crash and a food shortage is looming. Speaking of food shortages, my father-in-law, Ron Everall, an incredibly well-respected farmer, teacher and municipal councilor in Prince Edward County, predicted an imminent food shortage approaching back in 2006. He went to great lengths to form a political coalition in response.

Ron died just a few days before he was to see success with his initiative. To my knowledge, the Prince Edward County municipal government dropped the ball on Ron's initiative soon after his death. It wasn't long after Ron died that my husband, myself and our children were booted out of the Everall family. I believe my mother-in-law, Mary Everall once served on the Police Services Board. Isn't it strange how so much of life is best viewed in hindsight?

At any rate, the corruption in Prince Edward county and the subsequent mismanagement of the municipal government has become absolutely intolerable! The people like myself, who the self-proclaimed elite have been attempting to push out of the community, will be forming a coalition of our own and pushing back against corruption wherever and however is collectively determined necessary.

While the vast majority of society may be cognitively dissonant to what's occurring in plain sight with the shadow government and the disparaging system of alleged nobility in Canada, there's still a minority of painfully conscious individuals who see it all and are extremely prepared to respond to the tyranny in Canada at this point in time.

When Queen Elizabeth II's death is announced, which could be anytime at this point, the final move to take over Canada by the United States could actually become a reality. Whether positive or negative, the Queen has provided a homeostasis to Canada that, in my opinion, will drastically change the moment her death is realized. I urge the reader to learn more about global corruption and how it affects Canada by visiting the Holisticus International website.

The system of nobility that the yahweh lovers built for themselves is the source of so much of the devastating harm that is costing the people of Canada their lives and liberties and its been going on for far too long now! Despite any adversities set before me or the conscious minority that I'm a part of, we will continue to expose the shadow governments that's acting on the covenants of Abrahamic religions and the whole resulting system of religious persecution and political repression. In return, the individuals purporting that incredible tyranny will be arrested in due time, through due process. I've never been more sure of anything in my entire life!

Respectfully said, if you're not part of the solution in Canada, you're quite likely a part of the problem.

I would very much appreciate prompt and serious attention and a subsequent response to the matters raised herein, although I don't realistically expect such. At any rate, I'll thank you in advance for your time and attention should my assumptions about a response prove incorrect.

Sincerely,
Brenda Everall
