To: Marcia Wallace, Steven Ferguson and Councilors

Admittedly, there is no friendly tone to this letter, whatsoever. Although I've been respectful in previous correspondence, the respect is not mutual and I'm not on a friendly basis with the PEC municipal government, obviously, so I won't pretend otherwise.

It's taken me years of blood, sweat and tears to secure but I finally have the evidence necessary to prove that the Prince Edward County (PEC) municipal government and particular prominent individuals and groups of individuals have colluded in conspiracy to cause serious, irreparable harm to me and mine.

The PEC municipal government has literally robbed me, with all intent, of any sense of dignity while usurping my home and property. It's so incredibly sick and disgusting! An elite group in PEC has literally worked to destroy me in any way possible, robbing me of opportunity, dignity and stability. My life, liberty and security of person is a joke to the PEC EXECUTIVE GOVERNMENT.

Internal colonialism, an internationally unlawful act, is, as far as it seems to me, occurring in PEC whereby an entitled few appear to be creating serious disadvantaged and inequitable conditions for the rest of the community. I've been so adversely affected by the corrupt government in PEC, myself, that I literally had no choice but to research the actual history of Canada to find out how and why the corruption is occurring.

It's taken me quite some time to put it all together but now that I have an understanding of how the executive government at the federal, provincial and municipal levels are operating, it's evident, to me at least, that the people of Canada are being duped. Municipal councils and the provincial legislature are not calling the shots but instead, it's the so-called executive branch that's wreaking so much havoc in municipal affairs these days.

Ontario, as most of you likely understand, has been restructured into census divisions and, thus, many changes have occurred to the municipal government structure in Ontario. CAOs appear to

run the show these days and outside corporations, such as StrategyCorp, appear to be influencing municipal officers, a criminal act, here in Ontario. Many deceitful changes to the structure of government have gone on under the trusting noses of the general public. PEC isn't even considered to be a county any longer, now designated as a city where the so-called municipal executive projects an 333% influx in the population. PEC is literally about to be transformed in a way that no local, in my opinion, would ever consent to. The Association of Ontario Municipalities, along with the so-called Eastern Ontario Mayor's Caucus and the respective Warden's caucus, appear to be facilitating the outright abuse of public trust.

Loyalists and other settler family descendants, as far as I'm concerned, continue to colonize at the cost of the entire community despite the fact that the rest of the civilized world is actively decolonizing. Prince Edward County seems to be stuck in the past and it's an exceptional burden on those in the community who so desperately attempt to evolve beyond Canada's colonial period! Even further, the so-called proud loyalist municipality appears to be engaging in crimes against humanity by inducing preventable poverty and homelessness for the so-called 'underprivileged' or 'less fortunate' constituents of PEC.

The Chamber of Commerce appears to be facilitating the necessary connections to bring *prosperity* to a particular demographic in PEC. It seems to me that all of this talk of equity, diversity and inclusion is just lip service and a new way for the entitled community handlers to sound concerned about the community at large, which, in my experience, is, most certainly, not the case. It seems to me that the rich are getting richer while the poor get poorer in PEC all while the community is being transformed to become something that the locals have continuously objected to!

I, myself, have been held down for a very long time due to corruption in the medical industry, the child protection industry, police services, social services and all levels of government in Canada, despite my best efforts to prevent or resist such. Still, I've been doing what I can to heal and to get stronger and I'll be doing what it takes, even if it kills me at this point, to stand up to the corruption in the PEC community.

If the municipality successfully usurped the property that I've sacrificed beyond measure for, I'll be recovering the losses from those who are responsible. I know that so-called professionals have been trained to believe that they're untouchable as far as the law is concerned but I can assure the reader that no one is immune to the law - NO ONE!

Every single person on this planet who governs themselves in the absence of good faith is subject to personal liability under the law. If harm is caused because of an action done in bad faith, the perpetrator of the harm becomes absolutely liable. So-called officials enjoy protection of the law so long as they govern themselves in good faith while applying established policy. Once good faith is abandoned, however, so-called officials subject themselves to personal liability. Average people who are harmed by bad-faith actors can then apply tort law to recover loss which I plan to do for my own matters in due course.

Many of my friends and family members are being either disadvantaged or outright killed off by the so-called professionals in the PEC community and I've had far more than enough of it! As such, once I'm in a position to assist others, I'll help them to do the very same! It's become evident at this point that I'm far from the only person being oppressed by the PEC municipal government and other key players in the community.

It's come to the point that nepotism and cronyism are obvious factors behind the corruption in PEC. Nepotism and cronyism are strongly linked to colonialism and will be exposed and resisted in PEC, especially at this point, so that every single person in PEC has a voice and a place in their own community. I'll be releasing a number of videos to the public about this matter and seeking subsequent assistance from various outside authorities as Canada's internal colonialism is simply too much at this point!

The bottom line here is that my life has been destroyed by the so-called elite in PEC and it's far beyond time that that story was told! What the PEC council and other municipal staff have allowed to go on in my life is not only criminal and inequitable but outright inhumane! Although I've said in the past that I plan to hold protests in the town, I haven't been able to do so because of my given situation. This summer, however, I can be expected to be seen at random locations in the county where I'll be engaging with tourists and the community at large.

I guarantee that the mayor and CAO will know by the end of this summer that they have lit a metaphorical fire that they can't put out now. I'll be relentlessly elevating my voice in the community and I'll be doing what it takes to let the rest of the country know that PEC is captured by so-called elite tyrants! I know, for a fact, that I'm going to be on the right side of history in this war that's being waged against me by the PEC municipal government.

The reality of this horrible matter is that I'm being systematically dismantled all because I stood up for others in the community and blew the whistle on hospice, the PECAS and others who were causing harm to the wider community. The police have acted as personal body guards to keep me silent about it all while a circle of friends remains committed to slandering me and subsequently alienating me from the community in various ways.

I should state, too, especially on record, that I'm in no way threatening anyone with anything unlawful. Every single step that I take in response to the unbelievable tyranny that I'm experiencing will be 100% lawful. I can't effectively relate how sincerely though I am tolerating cowards who can't face facts while subsequently alleging to others that I'm threatening them or being otherwise inappropriate for merely seeking accountability in a peaceful manner.

I've always been upfront, honest, respectful and proactive with PEC staff and so-called officials only to get repeatedly kicked in the face, so to speak. I've been proactive and I've done my very best to cooperate with PEC staff and so-called officials but I can't endure the oppression any longer. It's been a long-time running and all I can do now is tell my story and recover my losses as necessary.

Despite how bleak things appear to be for me at this time, I'm confident that the tables will turn and that I'll be living in a very fine house on a very fine property one day. One way or another, I'll get my due, even if that means suing so-called officials and taking their house to live in. Who knows, maybe I'll be living large in the mayor's or CAO's house one day. The reader may find that last statement humorous but I find it to be of real potential.

With that said, it needs to be noted that not all so-called officials in PEC appear to be acting in bad faith. It appears as though municipal councilors throughout Ontario are being stifled by the so-called executive branches of respective governments through non-disclosure agreements and other legal instruments. While councilors still have a duty to rescue the community at large from the effects of internal colonialism, it appears to me as though many councilors are either too confused or scared to respond to community issues accordingly. Simply put, NDA's appear to be silencing municipal councils throughout Ontario. In this way, the oppression that I've been experiencing is now coming for the wider PEC community. I simply refuse to stand by and let that happen!

I'll close by saying that I've surely been silenced, to say the least, by oppression over these past few years but once I get my voice back I'll be shouting my truth from the rooftops in PEC. What's been done in the dark will most certainly be brought to the light! My oppression is well documented and it will surface and be staunchly defended by others even if I should have to meet an untimely demise. It's all on the line for me at this point and I'm definitely not holding back from the truth surrounding my oppression any longer!

Again, a response is requested but certainly not expected, especially from entitled tyrants! Still, I'd appreciate any amount of human decency the PEC municipal government could muster up, if at all possible.

Sincerely,  
Brenda Everall
