Office of the Conflict of Interest and Ethics Commissioner
Parliament of Canada
66 Slater Street, 22nd Floor
Ottawa, ON K1A 0A6
Email: info@cie.parl.gc.ca

Dear Commissioner:

Direct evidence indicates that the former British Empire, now operating as the Commonwealth of Nations, has captured the government of Canada.

An incredibly serious conflict of interest appears to exist within the Canadian government stemming from the Treasury Board, a committee of the Privy Council.

The outrageous deception that's occurring here in Canada, from my perspective, effectively cancels the contract (constitution) established between the British Empire/Commonwealth and the People of Canada. As such, from my perspective, a new constitution for Canada must be urgently realized by the people of Canada!

As it stands now, according to at-hand evidence, the people of Canada and the nation itself are in potential peril due to what appears to be the clandestine occupation of Canada by foreign powers.

The Office of the Conflict of Interest and Ethics Commissioner has, from my perspective, a duty to warn the people of Canada about this incredibly serious ethical breach within the government of Canada, subsequently exercising any and all mandated powers available in a committed effort to safeguard the lives, liberties and security of the people of Canada!

This urgent matter requires a timely dignified response which I look forward to receiving as soon as possible. Thank you in advance for the time and attention required to effectively address the outrageous matter of what appears to be the capture of Canada by the Commonwealth of Nations.

Please review the evidence and respond accordingly.
